DETAILED ACTION

Election/Restrictions

Applicant's election of Compound 54 and claims drawn to Compound 54 is acknowledged. Claims 18-102 are pending and examined on the merits.

Information Disclosure Statement

The information disclosure statement filed 09/12/2001 fails, in part (see non-initialed references) to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

Claim Rejections - 35 USC § 112 2nd

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 21 and 89 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 21 is unclear because the invention is drawn to a "compound", which depends from a "composition". It is suggested that Applicant delete the term "compound" and insert the term "composition".

Art Unit: 1654

Claim 89 is unclear because the invention is drawn to a "composition", which depends from a "method of use". It is suggested that Applicant delete the term "composition" and insert the term "method".

Allowable Subject Matter

Claims 18-20, 22-88, and 90-102 are in condition for allowance. Compound 54 is not reasonably taught or suggested by the prior art of record. The closest prior art of record is Leone-Bay et al. (US 5,650,386), which teaches a myriad of octanoic acid compounds (see i.e. col. 3, lines 12-16 and col. 4, lines 35-40). However, Leone-Bay et al. do not reasonably teach or suggest Compound 54.

Conclusion

Claims 18-20, 22-88, and 90-102 are allowed.
